

Is your home

COLD?

Help and funds are available from the larger energy suppliers.

You could be eligible if:

- **Your property has a low EPC rating and requires energy efficiency upgrades**
- **You own your home or have permission from the landlord, including a social landlord in some cases.**

There are 2 schemes:

Energy Company Obligation (ECO) 4

- A 'whole house' approach, providing loft and wall insulation and air source heat pumps as needed.
- To be eligible, you must receive a qualifying benefit.

Great British Insulation Scheme (GBIS)

- One type of insulation only, typically loft or cavity wall
- Low-income group: must receive a qualifying benefit
- General group: Energy Performance Certificate (EPC) rating D-G, and Council Tax Band A-D.

For further details see over.

To check if there is an EPC on your property:

<https://www.gov.uk/find-energy-certificate>

To check your Council Tax band:

<https://www.gov.uk/council-tax-bands>

ECO4 and GBIS are not grant schemes, so companies provide different levels of financial support.
